<https://linkedin.com/in/israarvin>

Passionate and driven Software Engineer with 5 years of experience in developing and maintaining web applications. Proficient in frontend technologies such as Next.js, GraphQL, Typescript, and React. Experience with backend technologies including Node.js, Express, and MongoDB. Strong problem-solving and communication skills, with the ability to work independently and as part of a team. I've got experience with most of the widely used programming paradigms, and fancy trying out new ones, though recently I'm mostly using Go and Rust.

Skills

- Frontend: TypeScript, JavaScript, React, Redux, Next.js, Vue.js
- Backend: Node.js, Express, MongoDB, MySQL, SQL
- Tools: Git, GitHub, Jest, Enzyme, Webpack, Babel, Postman, Netlify, JWT

Experience

Jan 2020 - Dec 2022

Xoomit, Remote – *Software Engineer*

- Developed and maintained a customer-facing web application using React and Redux.
- Implemented responsive design using CSS and HTML to ensure the application was mobile-friendly.
- Collaborated with a team of developers to design and implement new features.
- Used Git and GitHub for version control and code review.
- Worked with the QA team to fix bugs and improve the application's performance.

Aug 2018 - Nov 2019

Company Name, Remote – *Front-End Developer*

- Developed and maintained a web application using React and Node.js.
- Worked on the application's backend using Node.js and Express, and MongoDB for the database.
- Implemented unit and integration tests using Jest and Enzyme.
- Used Postman to test API endpoints and debug issues.
- Participated in code reviews and provided feedback to team members.

Jan 2017 - Jun 2018

Company Name, Remote - *Back-End Developer*

- Built complete responsive web applications using HTML, CSS, JavaScript (JS), React, and third-party APIs.
- Developed full-stack applications and designing REST APIs with full CRUD functionality using MongoDB, Express, React, and Node (MERN).
- Managed team-based projects using Git version control, Figma, Github, and Slack

Education

MONTH 2013 - MONTH 2018

Kabul University, AFG - *Bachelor's in Computer Science*

- Coursework included: Data Structures, Algorithms, Operating Systems, Computer Networks, Database Systems
