SUMMARY

A 5-Years Senior JavaScript Developer with expertise in Front-End Technologies such as React, Next.js, React Native, Typescript, Redux, TDD, PWAs, Agile Methodologies, and Design Systems. Passionate for Web Accessibility, Serverless, and Business Development. Led a team of 12 developers, resulting in a 15% improvement in productivity. Currently Building a React native app for a non-profit.

EXPERIENCE

06/2022 - Present

Front End Engineer

Nursery Story - [Remote] - U.K. ↗

- Revamped website flows and navigation menus, reducing the frequency of misdirected customer service queries by 30% and increasing traffic to previously neglected pages.
- Refactored a monolithic React and React Native codebase, resulting in a 20% improvement in code quality and a 15% increase in overall performance by proposing and implementing improvements to code organization.

03/2021 - 04/2022

FronD End Developer

Xoommit - [Remote] - Brasil

- Recognized for outstanding performance, earning the "Employee of the Month" award through an ongoing commitment to excellence.
- Designed a React-based delivery platform that increased web traffic by 23% and led to a significant boost in online sales within days of launch.
- Resolved internal conflicts, resulting in a more productive and harmonious working environment.

02/2018 - 12/2020

Full Stack Engineer

Alex Lab - [Onsite]

- Relocated a multi-page user experience into a single-page application, improving customer engagement by 12%.
- Boosted SEO on an employer's website (built with Typescript Next.js), resulting in a 19% increase in monthly visitors and a 7% increase in revenue.
- Decreased the load time of a Next.js e-commerce website (compatible with web browsers since 2013) by 1 second, resulting in a 5% increase in online revenue and a 9% boost in conversions.
- Developed a department-wide dashboard built with React, Ant Design, Redux, Node.js, and MongoDB to track support requests (consuming backend APIs), resulting in a 20% increase in the speed of resolved help tickets and a 1.5-point increase in tech support satisfaction.
